

Zones of Peace

The heart of the zone:

Essential values + harmony = Peace.

The Star, border of the zone:

Peace promotion + prevention + peaceful transformation of conflicts = Peace.

Disarmament zones and refuge zones are **static zones of peace**.
Peace education and peace promotion zones, conflict transformation zones, zones where new goals can be set, reached and are replaced, when fulfilled, by new peace goals are **dynamic zones of peace**.

Some examples:

All South America is a peace zone since 2002.

The world day for peace, on September 21 is a peace zone in time.

Non-defended localities, according to humanitarian law, are peace zones.

Antarctica and other **demilitarized zones** are peace zones.

Denuclearized zones are peace zones.

Villages and local communities in Columbia and in the Philippines declared themselves peace zones.

Countries without armies are zones of peace (and they should say so!).

APRED builds peace zones for you, at home, at work, in schools and neighbourhoods, in life and wherever you want it!
